

XVII Research and Development in Power Engineering Conference (RDPE 2026) 1-4 December 2026, Warsaw, Poland

The 17th Conference on Research and Development in Power Engineering

will be held on **1 - 4 December 2026**

with Honorary Patronage taken by

the Rector of Warsaw University of Technology (WUT)

This year's edition of the conference will focus on the most important current challenges facing the European and global power sector, presented by eminent, world-renowned scientists as well as by entrepreneurs and representatives of leading companies specialising in power engineering technologies:

- energy security and resilience of power and heat supply systems,
- decarbonisation pathways and the practical implementation of the energy transition,
- integration of renewable energy sources, energy storage, and smart grids,
- nuclear energy, including the potential role of Small Modular Reactors,
- modernisation of infrastructure, system flexibility, and energy affordability.

Important information

Important Dates:

- Abstract submission deadline (400 words): **31.05.2026**
- Notification of acceptance: **30.06.2026**
- Extended abstract submission deadline (2 A4): **31.08.2026**
- RDPE 2026 Conference dates: **1 - 4.12.2026**
(1.12.2026 - Celebrating the 65th anniversary of the Institute of Heat Engineering; 2 - 4.12.2026 - RDPE 2026)

Conference fees:

Early bird registration (1 July - 27 September):

- 2500 PLN (600 EUR)
- 2150 PLN (520 EUR) for students and PhD students

Conference fee (28 September - 1 December):

- 2800 PLN (670 EUR)
- 2400 PLN (580 EUR) for students and PhD students

Venue:

- **Novotel Warszawa Centrum** - hotel in the centre of Warsaw
94/98 Marszałkowska Street, Warsaw, Poland

Papers positively evaluated by the Scientific Committee of RDPE will be published in renowned international journals.

The official language of the conference is English.

On behalf of the organizers

Professor Wojciech Bujalski

For more information on the conference,
please visit our website:

The thematic scope of the conference includes:

- Sustainable and Renewable Energy Technologies
- Biofuels
- Power Systems and Smart Grids
- Energy Storage and Management
- Hydrogen Production, Storage, and Usage
- Nuclear Energy
- District Heating Systems and Their Transformation

Register now:

Institute of Heat Engineering

Faculty of Power and Aeronautical Engineering
Warsaw University of Technology

Institute for Applied Research
Warsaw University of Technology
